This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of claims:

Claim 1 (currently amended): An decorative fabric assembly, comprising:

 a base fabric comprising a receiving section adapted to receive a removable fabric section, wherein a substantial portion of the removable fabric is located on a surface of the base fabric and the removable fabric section is spaced from edges of the base fabric;

 one or more removable fabric sections adapted to be interchangeably attached to the receiving section; and

 fastening means for attaching the one or more removable sections to the receiving section of the base fabric, wherein a first removable fabric section is affixed to the base fabric to create a first decorative scheme, and wherein the first removable fabric section is capable of removal and replacement with a second removable fabric section to create a second decorative scheme.

Claim 2 (original): The decorative fabric assembly of claim 1, wherein the fastening means is selected from the group consisting of buttons, snaps, ribbons, zippers, Velcro, and hooks with strings.

Claim 3 (original): The decorative fabric assembly of claim 1, wherein the fastening means is not visible after the removable fabric section is attached to the base fabric member.

Claim 4 (original): The decorative fabric assembly of claim 1, wherein the receiving section is located at the center of the base fabric.

Claim 5 (original): The decorative fabric assembly of claim 1, wherein the base fabric is attached to one of the removable fabric sections to form a bed cover.

Claim 6. (original): The decorative fabric assembly of claim 1, wherein the base fabric comprises additional receiving sections adapted to receive the removable fabric sections.

Claim 7. (original): The decorative fabric assembly of claim 6, wherein the base fabric is attached to multiple removable fabric sections to form a bed cover.

Claim 8. (original): The decorative fabric assembly of claim 1, wherein each fastening means comprises a first component located on the base fabric and a second component located on the removable fabric section, and wherein the first component is capable of attaching to the second component to secure removable fabric section to the base fabric.

Claims 9-10 (canceled).

Claim 11 (original): The decorative fabric assembly of claim 1, wherein the base fabric comprises multiple pieces of sub-base fabric, said multiple pieces of sub-base fabric removably and interchangeably attached to each other by fastening means to form the base fabric.

Claim 12 (currently amended): A decorative fabric assembly for covering a bed, comprising:
a base fabric sheet comprising a receiving section adapted to receive a removable fabric section, wherein the removable fabric section is located on a solid continuous surface of the base fabric sheet and the removable fabric section is spaced from edges of the base fabric sheet;
one or more removable fabric sections adapted to be interchangeably attached to the receiving section; and
fasteners for attaching the one or more removable sections to the receiving section of the base fabric, wherein a first removable fabric section is affixed to the base fabric to create a first decorative scheme, and wherein the first removable fabric section is capable of removal and replacement with a second removable fabric section to create a second decorative scheme.

Claim 13 (original): The decorative fabric assembly of claim 12, wherein the receiving section is located at the center of the base fabric.

Claim 14 (original): The decorative fabric assembly of claim 12, wherein the fasteners are selected from the group consisting of buttons, snaps, ribbons, zippers, Velcro, and hooks with strings.

Claim 15 (original): The decorative fabric assembly of claim 12, wherein the fasteners are invisible after the removable fabric section is attached to the base fabric.

Claim 16 (original): The decorative fabric assembly of claim 12, wherein the base fabric comprises additional receiving sections adapted to receive the removable fabric sections.

Claims 17-20 (canceled).

Claim 21 (currently amended): A method for room decoration, comprising:

covering an item or an opening with a fabric assembly comprising a base fabric including a receiving section adapted to receive a removable fabric section to create a first decorative scheme, and a removable fabric section adapted to be interchangeably attached to the receiving section using fastening means, wherein the removable fabric section is located on a solid continuous surface of the base fabric and the removable fabric section is spaced from edges of the base fabric sheet.

Claim 22 (original): The method of claim 21, further comprising:

removing the removable fabric section from the fabric assembly; and
replacing the removed removable fabric section with another removable fabric section to create a second decorative scheme.

Claim 23 (original): The method of claim 21, further comprising:

attaching the base fabric to a solid supporting structure.

Claim 24 (currently amended): A fabric decorating kit, comprising:

a base fabric comprising a receiving section adapted to receive a removable fabric section, wherein a substantial portion of the removable fabric is located on a surface of the base fabric and the removable fabric section is spaced from edges of the base fabric;

one or more removable fabric sections adapted to be interchangeably attached to the receiving section; and

fastening means for interchangeably attaching the one or more removable fabric sections to the receiving section of the base fabric, therefore creating one or more decorative schemes.
